

ENERGY STORAGE & DISTRIBUTION 2018

Meet over 130
senior executives
from the
industry

Main speakers:

Ronnie Belmans
EnergyVille and
Global Smart Grid

Ad van Wijk
TU Delft

Frank-Peter Hansen
TenneT

Frederik Snoeck
EDF Luminus

Juraj Nociar
European
Commission

Pieterjan Renier
VREG

Endless use of
batteries and new
business cases

How will the
future systems
be managed?

Innovation:
Giant batteries
for district
heating

Goals
European
Union: too
ambitious?

New business cases and the endless possibilities of batteries

Wednesday, December 12th, Brussels, Belgium

12:00 Registration and networking lunch

13:15 Welcome

Moderator of the day, **Ronnie Belmans**, CEO EnergyVille, Chairman VREG and CEO Global Smart Grid welcomes you in Brussels.

13:25 Opening speech on the European energy ambitions

The European targets are ambitious, but is it achievable? Will the EU-countries be able to manage these targets or will the citizens across Europe lose faith? **Juraj Nociar**, Head of Cabinet Energy Union European Commission.

13:45 Keynote: EU energy ambition → Industry perspective

The view of the industry on the EU energy ambition. How can we manage the future system with more renewables and decentralised assets such as (battery) storage?

14:10 New System → New Regulation

The energy sector is changing, which demands for a new approach. What are the biggest challenges for suppliers, grid operators and energy users? Is regulation an enabler for the transition or will it delay innovations?
Pieterjan Renier, CEO Flemish Regulator for Electricity and Gas (VREG).

14:35 The new business case of the grid operator

With the increased demand for sustainable energy sources, new technologies and the impact of big data, the playing field is completely changed. Business cases of established companies need to adjust. What is the expectation of key player TenneT?
Frank-Peter Hansen, Corporate Senior Manager Regulation TenneT.

15:00 Coffee Break

“Useful afternoon, right balance in presentations and the networking is valuable.”
Participants 2017

15:45 An efficient transition to local smart grids

The grids are quickly evolving. With the introduction of smart meters in Belgium at the beginning of next year significant changes are expected. What are the biggest challenges Belgium faces in the smart transition?

16:15 The highlights of battery technologies

Innovative technologies are developing quickly. What can we expect in the near future? In which technologies do we need to invest?

Jean-Marc Timmermans, Business Group Leader Agoria.

16:30 Giant battery in Ghent for district heating

EDF Luminus will use 4,5 million liter water to provide the district heating in Ghent. What advantages does this way of energy storage bring?
Frederik Snoeck, Corporate Director Production EDF Luminus.

16:50 Hydrogen: storage for the best reasonable price

Ad van Wijk, Professor Future Energy Systems TU Delft, is the expert in the hydrogen economy. Will hydrogen storage be the answer to all our challenges?

17:15 Closing and networking drinks

Who will you meet?

We expect over 130 senior executives. These are senior executives from energy- and industrial companies specializing in energy storage and distribution and energy innovation. In addition we expect, research institutes, universities and government organizations.

Looking for exposure?

Take the lead with your organisation or product! Let us help you present current projects and services to your target audience.

Registration fee

Universities and government organizations: € 350,- (such as Cities, Provinces and European Commission)
Industry fee: € 550,- (such as energy companies, grid operators, technology providers and chemical companies)
Business services: € 650,- (such as consultants, lawyers and the financial sector)
This includes lunch, drinks, parking and documentation.

Receive a part of your training costs

KMO-PORTEFEUILLE
ERKENNDIENSTVERLEENER

Benefit from the KMO portfolio as a SME in Flanders. Portion of the registration fee will be refunded.

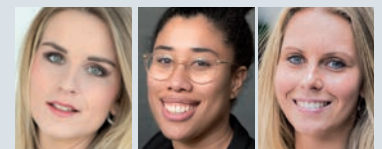

Top-quality conferences

- Networking in a relaxed atmosphere
- Enthusiastic and expert speakers
- Free replacement by colleague
- Cancel at no charge up to 2 weeks in advance of the conference

Organizer

This meeting is organized by Management Productions, a leading conference organizer with inspiring strategic networking meetings in the areas of ports, logistics, offshore, maritime, energy, industry, mobility, infra & building.
