a joint
responsibility

MANAGEMENT
PRODUCTIONS

12:00 Reception and networking lunch

13:15 Kick-off

By chairman of the day,
Joep Athmer.

13.25 Welcome

On behalf of Port of Amsterdam
Femke Brenninkmeijer, Director
Energy, Cargo and Offshore,
welcomes you at The National
Maritime Museum in Amsterdam.

Global developments in energy supply

13:35 The future of gas, a joint responsibility

The Russian gas industry has a huge impact on Europe. **Oleg Aksyutin**, CEO South Stream Transport & Member of the Board of Directors, Gazprom (confirmed under conditions) will share his vision on the future role of gas including climate effects and how the Russian strategy will affect European/International businesses.

14:00 Impact of nuclear developments on total energy demand

More nuclear activities in Europe will decrease the demand for offshore energy. What impact could nuclear developments have on the total energy demand? **Ad Louter**, Managing Director, Urenco and Chairman, Nuclear Netherlands shares his vision.

14:20 Developments in new energy

The ever-increasing demand for new energy sources calls for strong actions. What do new energies have the industry to offer and what does it mean for your business management in terms of chances and growth opportunities?

Interview with:
Gerard van Pijkeren, Director, Gasunie New Energy
More speakers to be announced

14:45 Energy break

The state of the industry

15:30 North Sea decom as example for the world

A large number of oil and gas fields will reach the end of their economic life cycle in the coming years. Actions must be taken now in order to organize re-use or decommissioning at the highest standards. How to achieve low cost but safe operations?

Interview with: **Lars Banke**, CEO, Maersk Decom
More speakers to be announced.

15:55 Surviving by innovating

Challenging times ask for strong and innovative solutions. **Jan van der Tempel**, CEO, Ampelmann will share his thoughts on a rapidly evolving industry. What is the main call to action for the industry to achieve a healthy and flourishing future?

The future of offshore energy

16:15 Roundtable debate: "The future of offshore (energy) industry"

Although there is still a huge demand for oil and gas, the urge for green energy is growing as well. What is the current state of the offshore industry in reference to upcoming new energies in combination with future of oil and gas. What does an industry in transition has your company to offer?

Roundtable conversation:
Paul van Gelder, CEO, Mammoet
René Zwanepol, Managing Director, TAQA

16:45 Closing keynote speech

The 10th Edition's closing speech will be given by **Guido Landheer**, Deputy Director-General for Foreign Economic Relations, Ministry of Foreign Affairs. He will provide an overview of government support to the Dutch offshore sector. What services are available for your business to take advantage of new business opportunities abroad?

17:05 Networking drinks

Who will you meet?

During this event we expect more than 150 leading CEO's, directors and other senior executives of ship owners, shipbuilders, offshore companies and equipment suppliers. In addition we also expect various ports, government and politics.
