Making the energy transition work

Tuesday, May 29th, 2018 | LantarenVenster Rotterdam

12:00 Reception and networking lunch

13:30 Welcome

Chairman of the Day **Joep Athmer**, President Van Oord Offshore will welcome you at LantarenVenster in Rotterdam.

Who will you meet?

During this event we expect more than 200 international leading CEOs, directors and other senior executives of energy and offshore companies, as well as ship owners, shipbuilders, and equipment suppliers. In addition we also expect various ports, government and politicians.

Energy outlook

13:45 Opening

The 9th edition of Offshore Industry will be opened by trendwatcher **Richard van Hooijdonk**.

15:45 More to explore

When we look to deep sea developments there is more to explore. **Henk van Muijen**, Director, IHC Mining will share his vision on the great treasures hidden in the bottom of the ocean.

14:20 Outlook on energy developments

What is the current state of affairs in the offshore? What can we expect of the demand and supply of energy in the next years and decade? You'll get an economic update from **Otto Waterlander**, Senior Partner, McKinsey & Company

16:05 Future of solar at sea

A Dutch consortium of six leading companies builds first offshore floating solar energy farm in the world. What opportunities does this new market offer the industry? **Allard van Hoeken**, CEO, Oceans of Energy will share his expectations.

Looking for exposure?

Your organisation or company can take the lead! It can be done by presenting projects and services to your target group. Pick and choose from various promotional opportunities to set your company in the spotlight.

Top-quality conferences

- Networking in a relaxed atmosphere
- Enthusiastic and expert speakers
- Parking always included
- Free replacement by colleague
- Cancel at no charge up to 2 weeks in advance of the conference

New markets

14:40 Chances and challenges 'small fields'

The growing demand for energy makes the potential of small fields grow. Only the current energy prices creates a challenge in making this business model feasible. What can we expect of the exploration and production of small fields?

Interview with:

Imad Mohsen, CEO, Tulip Oil

René Peters, Director Gas Technology, TNO Energy

Future perspective

16:25 Challenging renewables

How will offshore wind parks look like in the future? Windmills grow in height, parks in size and also the numbers. This growth also increases the complexity. What developments can we expect in the next years.

Interview with:

Jasper Vis, Country Manager, Ørsted Netherlands

David Molenaar, CEO, Siemens Gamesa Renewable Energy, The Netherlands

Brent Wanner, Lead, Power Generation Analysis, IEA

Bob Meijer, Director, TKI Wind op Zee
